

**DEPARTMENT OF OBSTETRICS AND GYNECOLOGY  
NAVAL MEDICAL CENTER SAN DIEGO**

**REPRODUCTIVE ENDOCRINOLOGY and INFERTILITY (REI)**

**Location:** Clerkship will be served at Naval Medical Center, San Diego

**Duration:** 4 weeks or 2 weeks in combination with another departmental clerkship.

**Clerkship Description:** Students will be part of the REI team made up of board certified reproductive endocrinologists and OBGYN residents. They will participate in the outpatient and inpatient care of patients with infertility and other endocrine diagnoses with exposure to Assisted Reproductive Technologies (ART) and advanced ultrasonography. Other opportunities for education include morning rounds, departmental conferences, specialty clinics and allotted OR time. Generally the REI team is in the operating room once a week with laparoscopic, hysteroscopic and microsurgery cases. Additionally, there is an outpatient hysterosalpingogram clinic supervised by the REI team in Radiology.

The students will be expected to take OBGYN call approximately one night per week.
